

# Oracal 651 Vinyl Sheets

## Oracal 651 Instructions for Application

- Create design and place vinyl color/shiny side up on your mat.
  - Tip- For adhesive vinyl you do not mirror your project.
- Cut design and weed vinyl.
- Prep the surface of your product by spraying with glass cleaner and wiping with a soft cloth.
- Place transfer tape over your design and varnish the design to the transfer tape.
- Position your design on your product and press down firmly. Use a craft scraper to smooth out design.
- Peel up the transfer tape leaving the vinyl design on the product.
- Tip for Oracal 651 – Use a hairdryer to remove stubborn bubbles. Adding heat to the design will soften the adhesive.

## Product Details Oracal 651

- Materials come in solid colors and over all patterns.
- Printable Blank Oracal 651 sheets can be print your own pattern using an Inkjet printer.

## Material Recommendations for Oracal 651 Materials

- Best used for outdoor products; boards, metal signs, decals and works great on Tumblers.
- Oracal 651 HTS team does not recommended Oracal 651 for wall application because is a permanent adhesive which can damage paint

## HTS Recommendation for Project Tools

- HTS Mini Tweedy or Tweedy Lites are a great help with weeding fine lines.
